The 3rd International Myotonic Dystrophy Conference (IDMC-3)

Oct. 9-11, 2001
The Miyako, Kyoto, Japan

DEAR COLLEAGUES

It is a great pleasure to invite you to the 3rd International Myotonic Dystrophy Conference (IDMC-3) which will be held in Kyoto from 9-11 October 2001. The IDMC is a unique international meeting entirely devoted to DM, and the participants included both biologists and clinicians. Originally, with different expertise the IDMC-1 was Paris, France in 1997 with the support from the Association Francais contre les Myopathies (AFM) and the Muscular Dystrophy Association (MDA), to stimulate new scientific collaborations and contribute to the discovery of new therapeutic approaches.

The IDMC-2 was held in Research Triangle, North Carolina, U.S.A. in 1999.

Since these two previous conferences were so successful, we hope that the IDMC-3 will be even more fruitful event for you.
